

PARTICIPANTS NEEDED

Are you an autistic woman or non-binary person,
who also identifies as a gender and/or sexual
minority?

Then I would love to hear from
you!

What are the aims of the research?

I want to give a voice to people who have received a diagnosis of autism as an adult, who also have a minority gender and/or sexual identity. I aim to fill a gap in research by focusing on the unique experiences and needs of LGBTI+ AS identities. I hope that this study may contribute to increased recognition and knowledge of minority autistic lives and improve the services and support available.

What does participation involve?

Participation in this study is completely voluntary and involves taking part in a semi-structured interview with me, chatting about experiences of receiving a diagnosis and themes of identity. Due to the current COVID-19 guidelines, interviews would be via video call (this can be an audio call only if preferred).

How can I get involved or find out

If you would like to be involved or hear more about the project then you can contact me (Clare) at 40320027@live.napier.ac.uk
