

## About us

Creatovators is a Social Enterprise with a passionate belief that people on the autistic spectrum have a lot to offer. By providing help and support to them, their families, professionals, companies and organisations we are seeing significant success stories as a result of our service-user led, “can do” approach.

Our services, which have grown from a unique blend of training, personal experience and user’s input, include LEGO®-based Therapy, a monthly playscheme for the whole family, training sessions and professional services such as consultations.
