

Social Connection in Online Interactions

Are you aged 18+, based in the UK and fluent in English?

We're looking for participants for a study on how people connect during online conversations.

You'll complete questionnaires, have up to two 10-minute chats with other participants and receive up to £7.50.

We welcome neurodivergent people (e.g. autism, ADHD).

You'll need:

- **A stable internet connection**
- **Microsoft Teams (on a computer or laptop)**
 - **A private, quiet space**

Interested?
