

Visualisation and Memory in autistic adults

Online questionnaires (20 minutes)

How do you visualize the past? How do you imagine the future?

This research is part of our study about 'remembering to remember' (prospective memory). We are inviting **autistic adults** to tell us about their everyday memory challenges and experiences in a short online survey.

Take part: <https://bit.ly/2WSbz0V>

Enter a draw for 1 of 3 PayPal £20 cash vouchers*.

*Draw closes on 30 August 2020 at 5pm.

What's involved?

This short section of online questionnaires takes just 15-20 minutes to complete. You can also take a break in-between each questionnaire, if you want to (but once you've started, try to complete it all in 4 hours).

Eligibility

We invite autistic adults (aged 18+ years) and non-autistic adults to take part.

Benefits of participating

Your participation will help us to understand how to better supporting autistic adults in everyday memory.
