

THE UNIVERSITY
of EDINBURGH

Friendship Between Autistic Children and Their Neurotypical Peers

We are inviting autistic and non-autistic children between the ages of 8 and 13 years old and their parents to do interviews on friendship. The purpose of this study is to understand children's friendships and design an online game which help autistic and non-autistic children develop friendships as part of research projects at the University of Edinburgh.

Participation Involve:

- Two interviews one with a parent and another one with the child each taking 20 to 30 minutes.
- Answering questions on friendship development, how to keep in touch with friends during lockdown and how current technology is helping maintaining friendships

Participation Requirement:

Access to a device with Microsoft Teams installed

Times will be arranged based on participants availability.

If your child is interested in participating, please fill out the form in the link below or scan the QR code above to access the link: <https://bit.ly/37jSYiX>
